THE LARGEST COVID-VAX DATABASE IN THE WORLD

An ongoing history

This is the result of over 6 years of research into the pandemic. I have separated it into 3 condensed compilations of information and facts. The longer this hoax has gone on, the more information and revelations are coming out, until now it is an avalanche of damning facts which are still being censored by the colluding mass media. Basically this file is an ongoing up to date history of the Covid hoax.

This means that whatever date this present file is compiled at; it is not the end of the file. It is being updated daily and being added to.

Pgs 1-4 1st Batch: taken during 2020. The information is very limited because most of the URL's that I discovered about the hoax were taken down in less than a week, so I cannot list the videos I took the facts from, except as proof of the ongoing censorship on Google and YouTube.

Pgs 4-873 2nd Batch: taken during 2021 up to March 2026. (I finally found some sites on the internet that do not censor content regarding the hoax.)

Pgs 874-902 3rd Batch: deals with the origins of this global hoax and how virology really works.

The 2nd batch; page 4 up into the 700's is a timeline history of the hoax based on what information I could find on the internet which I am adding to almost daily… It is an unfolding of the revelations and discoveries that are piling up that exposes the
intricacies of this global hoax. But it doesn't explain all of it. There are too many govts and NGO's and separate entities involved to make any globally coordinated organized collusion or conspiracy believable. What it does reveal is that there are many corrupt people who will do anything for money or power or both. And there are yet more people who will do anything to protect their careers and jobs, and even more who believe and obey authority figures and that the majority of humans are easily fooled, duped and brainwashed.

FIRST BATCH: 2020

Globally, the World Health Organization estimates that the common flu kills 290.000 to 650,000 people each year. Until the Covid 19 virus kills more than 650,000 people; it is less deadly than the common flu virus.
Corona viruses have been around for 60 years. There are 36 different strains of corona virus, 4 of them have been known to cause infection for a long time. Corona viruses cause between 20-40% of the flu that we see worldwide. Screening tests are not specific enough to differentiate between any of those 36 different strains of virus.
It is highly likely that everyone in the world has had some exposure to a corona virus and has probably had some infection of a corona virus somewhere in their lifetime. If someone tests positive, what does that mean? Does that mean they have an active infection? Does that mean they had an infection in the past? Does that mean they have an active infection of one of the 36 strains that have been around for 60 years? If you test positive does it mean that you're sick? Or does it mean that you've been exposed to one of these 36 strains of corona virus and that it doesn't bother your immune system? If you test positive for corona virus, which strain do you have?

The new recommendations from the American CDC (and in Canada also)… Is if someone is in the hospital with a respiratory issue and they die… then even if you have not tested them… or you tested them and they were not positive…you're supposed to write on the death certificate "Co-morbidity". This is driving the numbers up to maintain the agenda of mass hysteria, mass panic and mass fear.. It keeps the panic churning. . It is estimated that 12,000-16,000 deaths annually since 2010 can be blamed on the common flu virus in America alone each year.
At least 8,200 people have died this season from the common flu virus in America. NOT from .the corona virus. The reason for these low members is the common flu is now being misdiagnosed as the corona virus. Otherwise the common flu deaths would be about normal: 12,000-16,000 deaths, AND BE IGNORED.
There are 3.91 millions deaths caused by respiratory illnesses every year globally.
HOW MANY RESPIRATORY DEATHS HAVE BEEN USED TO CREATE THIS HOAX?
Recent studies by medical experts have revealed that the rate of infections is much larger by order of many magnitudes. As a result of the increased number of infected people; the death rate for Covid 19 has changed from 1.3% to roughly about .01%... Dr. Fauci himself told the medical community behind closed doors that Covid 19 is a seasonal flu with a mortality rate of .01%... A .01% death rate IS NOT A PANDEMIC… IT IS A HOAX..
Globally, there are 17-18 million deaths each year. Of the 32 main causes of deaths the corona virus ranks at the bottom of the list.
Each year there are 3 million newborns who die in the world of pneumonia and 50,000 adults in the United States for the same cause, WITHOUT ALARMS BEING ISSUED.
In many cases, they are misdiagnosing the common flu and calling it Covid 19. Anyone who dies of a respiratory ailment is being marked down as dying from Covid 19
They are lying to you. The numbers are being deliberately falsified.
THERE ARE NO RELIABLE TESTS that can tell the difference between Covid 19 and all the other flu viruses… never mind the 36 different Corona viruses!!..
' There is NO real "Covid-19" What it is, is that "they" invented a miserable "corona-virus "test", which as it has been very recently been documented and written in the official U.S. Medical Library Records, is not and cannot detect any actual "Covid-19″… and instead it only detects "corona-viruses" existence in general in the human body… The so called "test" (and we are talking about the "credible" one which is working on the molecular level), in addition to the above, also, cannot detect the amount of the "corona-viruses" in the human body… which is crucial in order for a patient to be determined as an actual patient of a FLU…'
NEWS FLASH>>> The common flu is also a Corona virus. Covid 19 is a mild flu.
The stats for overall seasonal death rates this year across Europe are the same if not less than for any other year. The official figures for 24 countries across Europe show, not only that overall mortality is not increasing, but – so far – it is actually well below recent averages. https://off-guardian.org/2020/03/28/10-more-experts-criticizing-the-corona virus-panic/

"Someone right now is dying from pneumonia and it will absolutely be impossible to isolate this year's version of corona virus from other forms of respiratory ailments by exclusively claiming it as a causative factor in death. That is criminal negligence. The problem, is that "corona virus" (due to mass media over-magnification) will end up stealing stats from the 1.5-3 million pneumonia cases per year and the 3/4 to 1 million flu cases. In fact, it already is."

"In the majority of cases, COVID-19 takes the form of a mild cold or is even symptom-free. Therefore, it is highly unlikely that all cases of infection are recorded, in contrast with deaths which are almost completely recorded. This leads to an overestimation of the CFR. (Case Fatality Rate) An overestimation of the Case Fatality Rate also occurs when a deceased person is found to have been infected with SARS-CoV-2, but this was not the actual cause of death.

'You don't need to be an expert to see the causes for the concentration in Northern Italy and NYC. as Florence has about 300,000 legal Chinese immigrants taking over its manufacturing, in addition to countless illegal Chinese, who make regular and continuous trips back & forth to Wuhan. Once the outbreak in China became known, and China began complaining a few weeks later that calling it a Chinese- or Wuhan-virus was "racist," the mayor of Florence encouraged the Italian residents of Florence to "hug a Chinese" to show support. Again, there was a constant traffic between Florence & Wuhan at that time. And Florence apparently has the second oldest population in Europe, if not in the world.'
The most draconian military enforced lockdown since March has been Peru and they have the highest mortality from Covid in the world.
Why did they do this? Because spreading: MASS FEAR; MASS PANIC; MASS PARANOIA; MASS SELF-INCARCERATION; MASS VOLUNTARY SELF-IMPRISONMENT; MASS SURVEILLANCE: MASS OBEDIENCE TO THE AUTHORITIES; MASS HYSTERIA: MASS CONFORMITY, MASS BRAINWASHING: is always good for the ruling class…. MASS IMPOVERISHMENT OF THE "electorate"; MASS CENSORSHIP OF ALL OPPOSING VIEWS! even better! Making billions of people TOTALLY DEPENDENT ON THEIR GOVTS…. While the .01% get richer from HUGE bailouts to the banks and corporations. POLICE STATE MARTIAL LAW IMPOSED; real good excuse!
Can you say worldwide totalitarian surveillance states?
Can you say one-world governed by FEAR and HYSTERIA?
Can you say GLOBAL BRAINWASHING?
Billions of the world's masses are being impoverished due to this hoax.
MASS FEAR; MASS PARANOIA; MASS SELF-IMPRISONMENT; MASS CONFORMITY; POLICE STATE MARTIAL LAW. While destroying your society, your lives and your livelihoods…

SECOND BATCH; 2021- NOVEMBER 2023

In 2012, two studies were done that revealed the side effects from prescribed medications is the 3rd most common cause of death globally after heart disease and cancer…

Of Fauci's 7.7 billion dollar annual funding; he gets 1.4 billion dollars for bio-weapons research. *That is against US Law and the Geneva conventions*. So they exported the research to China and Ukraine to avoid being shut down. As of June 11th 2022, the Department of Defence admitted that there does indeed exist U.S.-funded biolabs in Ukraine – 46 to be precise – but the department assures they're "peaceful."

UKRAINE BIO WEAPONS LABS AND BIG PHARMA

https://www.bitchute.com/video/egorRailNAhR/

FACT: At the same time Fauci was put in charge of the NHIS, he was also put in charge of the U.S military bioweapons program. This has been covered up by the US govt until just recently…

Igor Kirillov, the head of Russia's Radiation, Chemical and Biological Defence Troops, citing an analysis of documentary evidence, said the profits US politicians earn for the private biotech sector helps to pay for their re-election via campaign donations. The US executive branch has also worked to create a legislative framework to finance military biological research directly from the federal budget, with funds of non-government organizations controlled by the leadership of the Democratic Party, including charitable foundations belonging to the *Clintons, the Rockerfellers, George Soros, and the Bidens*.

Major global pharmaceutical companies have become involved in these shady 'public private' partnership schemes, including the likes of Pfizer, Moderna, Merck, and the Pentagon-affiliated biotech firm; Gilead.

DNC FUNDED BIOLABS IN UKRAINE

https://www.bitchute.com/video/ZoxonTZdCKt4/?list=subscriptions

70% of Fauci's funding comes from the Pentagon. The U.S. National Institutes of Health under Fauci awarded a 3.7million research grant to the Wuhan Institute of Virology. He funded 60 projects at the Wuhan Institute of Virology *and all were in conjunction with the Chinese military.* During his term as head of the NIH he spent 191 BILLION dollars of tax payer's money for the bio-weaponization of viruses against Humanity. Since the rollout of the emergency use authorization, Moderna executives have suddenly become BILLIONAIRES. Pfizer made 19 billion dollars in the 2nd quarter of 2021 selling their poison death shots… That's 211 million dollars a day... Some of the known risks of these

shots are blood clots and cardiomyopathy. Luckily for Pfizer, they also make Eloquis for treatment of blood clots (sales up 13%) and they make Vyndaquel for cardiomyopathy (sales are up 77%). Big pharma is making 60 billion dollars a year selling the experimental jabs, *but they are also making 500 billion dollars a year selling remedies for the injuries caused by them*. Pfizer made 35.5 billion in 2021 off their Covid vaccines alone. They expect to make 98 to 102 billion dollars this year. Pfizer, BioNTech and Moderna are making 1,000 dollars a second due to their experimental vaccine rollouts. Moderna sold 5.9 billion of its vaccines in the first quarter of 2022… blowing out revenue and profit expectations. Moderna's first quarter vaccine sales more than tripled last year in 2021 when it reported 1.7 billion in sales shortly after the first sales rolled out. Pfizer is now being accused of profiteering as 2022 1st quarter sales hit 26 billion… ½ of the FDA's budget is financed by big pharma. By investing in vaccine patents and Moderna; FAUCI IS NOW WORTH 126 BILLION DOLLARS. Even at the start, Gates admitted vaccines was the best investment he's ever made; turning 10 billion into 200 Billion; which has grown to a 20-1 return (2,000%) profits. The Bill and Melinda Gates Foundation went from 96.68 billion in 2019 to 124 billion in 20221… The original title of the Bill and Melinda Gates Foundation was the *Bill and Melinda Gates Institute for Population Control*. Moderna's stock is up 230%. Last year: big pharma made **1.27 TRILLION DOLLARS**. To give you an idea of how huge the medical drug industry is in America, big pharma corporations employ 4 ½ million people in their labs and factories and offices. Big pharma accounts for 30% of the U.S. GDP… Now they want to make it 60%... In the US; big pharma has spent over 23 million dollars lobbying in 2021… There are 3 lobbyists per member of Congress from Big Pharma alone and their budget is about 1 million dollars a day. If they make vaccines mandatory globally, that's a 90 TRILLION DOLLAR A YEAR INDUSTRY… which is 4 ½ times the entire U.S. GDP. The head of Reuters (the largest news organization in the world) is also on the board of Pfizer. The largest stock owner of Spotify is also the largest stock holder of Moderna. Three of BlackRock's former executives are now top members in Biden's white house cabinet. BlackRock is the largest shareholder in all big pharma corporations. Ursula von der Leyen, head of the EU; buys Covid vaccines for the EU… Her husband Heiko runs the company that makes the vaccines… FACT: The CDC is a vaccine company… it owns 20 vaccine patents and sells about 4.6 billion dollars of vaccines every year. FACT: 45% of the FDA budget was paid for by big pharma… now it is up to 75%... 25% of the drugs approved by the FDA are withdrawn. Fact: 75% of all TV advertising is from big pharma, over 75% of mass media news is paid for by big pharma… and you wonder why people are so brainwashed.
The corrupt, global fascist collusion and criminal connections between corporations and govts are now being exposed more and more…Here is an example

Wealth of U.S. billionaires:
2010: 1,600,000,000,000
2021: 4,600,000,000,000
2010; US federal minimum wage $7.50
2022: US federal minimum wage $7.50

American billionaires have added 2 trillion to their wealth during the pandemic. Since the pandemic: 400,000 UK businesses have gone under while 600 new billionaires have been created. During the

pandemic in America there was a 3.9 trillion dollar shift in wealth from the poor and middle class to the super-rich. Plus 500 new billionaires were created during the lockdowns. Due to Tony Fauci's favorite drug remdesivir, the US had the highest death count in the world.

Bill Gate's fortune increased by 35% during the pandemic.

Trudeau bought 400 million doses of experimental vaccines. There are only 38 million people in Canada: That's more than 10 doses per person. It turns out Trudeau gets a kickback from Pfizer and Moderna for every shot they buy. Pfizer-BioNTech and Moderna uses B.C. Canadian based Aquitas lipid nanoparticle technology to manufacture their experimental jabs. That means big pharma has to pay Aquitas royalties for the right to use their patented technology every time they make an MRNA injection… The Trudeau Foundation owns a 40% stake in Aquitas… For example; unvaccinated truckers bringing Covid vaccines and medical devices into Canada have been exempted from quarantine and testing requirements, and obviously vaccine requirements. *Total economic global losses for the general populace since the start of the plandemic have reached 14 Trillion Dollars*… compare that to how the super-rich have profited from this hoax… THIS IS ALL ABOUT MONEY AND BIOTERRORISM.

Moderna has been using MRNA technology for 40 years to develop an HIV vaccine… *they never managed to do it*. MRNA Technology was patented as early as 1990. A patent application for the testing for Covid 19 was filed by Richard A. Rothschild of the Rothschild banking family in 2015… *5 years before Covid 19 appeared in China*. Richard A. Rothschild patented COVID-19 biometric testing in the Netherlands in 2015, the second registration was in the US, in 2017. *His net worth is 400 billion dollars.* Since 2003 there have been 4,100 patents filed on Corona virus for treatment-protection-vaccination-detection-etc: YOU DON'T FILE PATENTS ON SOMETHING YOU DON'T INTEND TO COMMERCIALIZE. What you need to understand is the operating principle of big pharma: **A CURED PATIENT IS A LOST CUSTOMER.**

In order to understand this hoax you need to understand that the contagion model based on germ theory was invented to sell drugs to make a profit AND to kill people; not to heal them... Prescription drugs are the third leading cause of death after heart attacks and cancer. Big pharma drugs kill around 200,000 people in America every year.

THE PURPOSE OF ALL MILITARY BIO-LABS IN THE WORLD IS TO INVENT-DEVELOP BIOLOGICAL WEAPONS OF MASS DESTRUCTION THAT WILL KILL PEOPLE ON A MASS GENOCIDAL LEVEL.

"Take note of the report for the US military by Black & Veatch and Metabiota. In accordance with this document, 'veterinary projects' with the code 'TAP' were implemented simultaneously with the 'UP' series projects in Ukraine. Their main focus was economically significant quarantine infections, capable of causing damage to the agriculture of individual nations and entire regions, such as galanders, African

and classical swine fever, highly infectious pathogenic avian influence, and Newcastle Disease," Kirillov said in a briefing Thursday in Moscow.

On July 7, the Russian Ministry of Defence reported on the results of the analysis of the military-biological activity of the USA and its allies in Ukraine and other regions of the world. The report confirms that:

- Ukrainian special units were planning to use biological weapons in Eastern Ukraine;
- Ukrainian servicemen were involved as volunteers in experiments to assess the tolerance of dangerous infectious diseases;
- the official activities of the Pentagon in Ukraine are just a front for illegal military and biological research
- Ukraine and other post-Soviet states have become a testing ground for biological weapons not only for the USA, but also for its NATO allies
- the U.S. persists on its policy of building up its own military and biological capabilities in circumvention of international agreements.

KIEV CONDUCTED EXTREMELY DANGEROUS RESEARCH IN ITS BIOLABS

https://southfront.org/kiev-conducted-extremely-dangerous-research-in-its-biolabs/

As David Icke explains how the globalists manipulate the masses: "Problem-reaction-solution". By selling the idea that diseases are infectious and then selling vaccines as the best way to control infectious diseases, they create and spread disease by their poison jabs… which gives them the ability to sell even more poison jabs to the brainwashed masses and make even more profits. This hoax began long before 2019. What people do not know is that germ theory was disproved in the 1880's, before Louis Pasteur sold this fraud to the world.

Apart from greed, how else to explain the collusion between Big Pharma and govt? Govt pension funds are going broke. U.S. social security will run out of funds by 2026. How can the govt stave off their bankruptcy? By not paying out veterans, and old age pensions for the next 10-20 years to tens of thousands if not millions of recipients who would still be alive if it weren't for the poison jabs… How much money can they save? Billions?

ANNUAL STATISTICAL FACTS: PUBLISHED BY THE CDC: Nov: 2020

2019; US mortality rate: .9%
2020; US mortality rate; .9%

2019; US Deaths per thousand: 8.70
2020; US Deaths per thousand: 8.78

UNITED STATES ANNUAL DEATH RATE DATA (Taken from Raw Data Center.)

YEAR	DEATH RATE	GROWTH RATE OF DEATHS
2020	8.880	1.12%
2019	8.782	1.12%
2018	8.685	1.12%

FACT: UK deaths in 2018 were HIGHER than in 2020
In Canada the annual percent increase of deaths in 2020 was the lowest since 2012. This includes sharp increases in overdose deaths and the deaths of those who expired because their surgeries were postponed last spring
FACT: The average lifespan is 70-80 years.
FACT: Over 90% of the supposed Covid 19 deaths are between 70 and 80.
For instance, the average life expectancy in Ontario is 81 years old… the Covid death age average is just over 82 years old.
FACT: The average age of Covid deaths in the UK was 82.5 years
The average Life expectancy in the UK for men is 79 and 82.9 for women.
FACT: The average age of People in Sweden dying with Covid 19 (not from Covid: WITH Covid) is 84
FACT: In Israel; the average age of Covid-10 patients who died was 80.2 years.
FACT: The Covid average death age EXCEEDS all the average life expectancies in all of the countries reporting Covid deaths
FACT: There were no excess deaths before the experimental MRNA inoculations
FACT: Excess deaths have skyrocketed AFTER people started taking the poison jabs.
FACT: If you look at the 2020 audit statements of the world's largest life insurance companies; there are no excess deaths. Is Covid so damned smart that it only kills the uninsured? Pfizer CEO Albert Bourla says he will not take his own vaccine. Groups that have been exempted from taking the mandated vaccines in the USA: All of Congress. All Congressional staff: house and senate, 6,000 white house employees, 2,500 Phizer employees, 1,500 Moderna employees, 120,000 Johnson & Johnson employees, 15,000 CDC employees, 14,000 FDA employees, 8,000,000 Chinese students exempted, 2,000,000 illegal aliens, 500.000 homeless and street people… The rest of you take the vax or lose your job: *What does that tell you?*

FACT: The reason 2020 annual mortality rates and growth rate of deaths are the same as in previous years, regardless of the supposed Covid deaths, is because they have stolen deaths from people who would have died anyways in order to scare people into believing in this hoax. There is no pandemic: You have been scammed. If you don't believe me: Try to find any total annual death statistics for 2020 along with previous years on the same internet page… You won't find them together because it would show that there was no increase in total deaths compared to previous years. The U.N. still hasn't released the 2020 global death rates… *I wonder why.*

Basically the PCR test magnifies the danger of a virus by false positives just like the mass media and the govts have magnified the danger of Covid 19 by false propaganda….

FACT: both masks and PCR tests were manufactured before the virus appeared and both contain Ethylene Oxide, a known carcinogen, including the swabs. People need to run like hell from the testing.

Read about the PCR test and its false positives. https://bpa-pathology.com/covid19-pcr-tests-are-scientifically-meaningless/ The PCR test cannot tell the difference between living cells and decomposed dead material. Govts are forbidding doctors to give antibody blood tests because it would expose the fact that the experimental jabs destroy the body's natural immune system and that they were healthier BEFORE they took the vax.

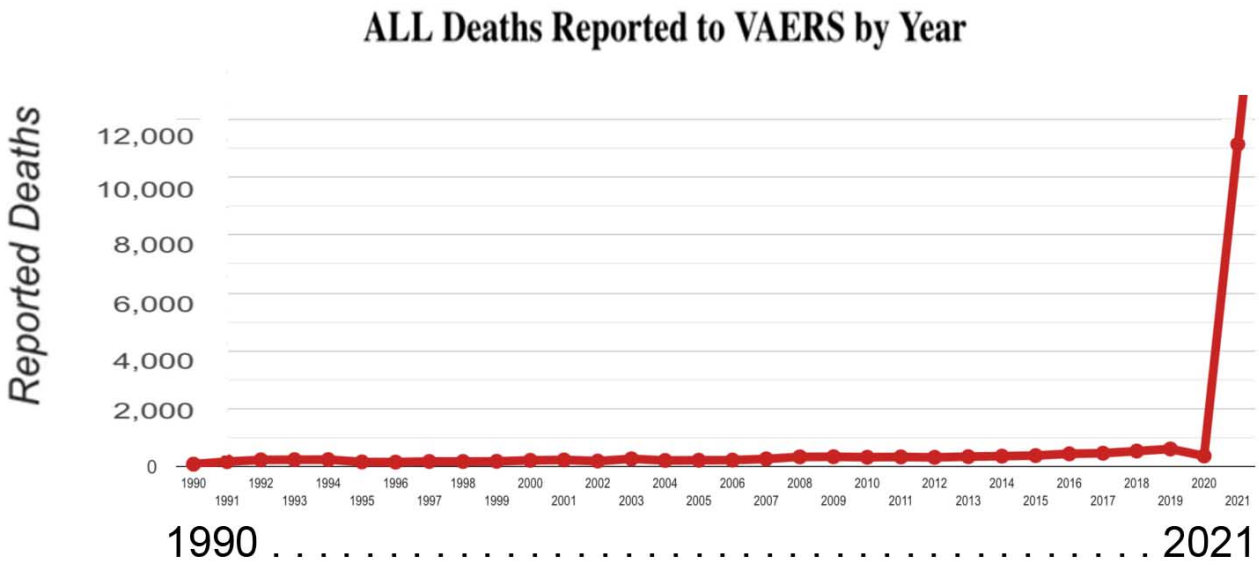
Norway itself reported over 3600 adverse reactions to the vaccine.
4,178 post-COVID-vaccine deaths now reported (through May 3rd 2021) to the U.S.-based Vaccine Adverse Event Reporting System (VAERS). Update on July 7th 2021: 2,000 deaths reported in the last 2 weeks, now up to 9,048 deaths total. UPDATE: Sept 20th VAERS report almost 15,000 deaths. As of Nov 19th: 19,249 deaths, 913,266 adverse reactions; 97,561 hospitalizations; permanently disabled; 30,967. Update Nov 26th: VAERS deaths: 19,532.

The VAERS underreporting factor (URF) is required information to be known for any risk-benefit of assessment of a vaccine. The fact that this number was never calculated by the FDA or CDC means that all the safety recommendations to date have been guesses. The most important thing to know about VAERS is that it is always underreported. This is widely known. A Harvard study a decade ago said only 1% of Vaccine deaths/injuries are actually reported by the VAER system. A 2006 study published in the journal: Drug Safety including more than 37 different studies from 12 different countries that used various surveillance methods concluded that up to 95% of serious adverse events go unreported or only 5% reported. Using the VAERS database and independent rates of anaphylaxis events from a Mass General study, Steve Kirsch computed a 41X under-reporting factor for serious adverse events in VAERS for the experimental MRNA inoculations, leading to an estimate of over 150,000 excess deaths caused by the vaccines as of **Aug 28, 2021**. Even with the underreporting, the statistics are off the chart:

COVID Vaccine Data

Through August 6, 2021

Reported Deaths post COVID Vaccine: Total 12,791



In Europe, the COVID vaccine fallout has been equally alarming: The EudraVigilance database reports as of November 13 20021, there were 30,551 fatalities and 1,163,356 adverse drug reactions from COVID vaccines. UPDATE> Nov 20th: 31,014 deaths, 2,890,600 adverse reactions. BRAZIL: 32,000 DEAD FOLLOWING COVID SHOTS. Norway has announced that you are at a greater risk of dying from Astrazeneca vaccine than from covid-19

After 16 years of trying, a SARS-co-1 jab was never established... you cannot convince me that they have created one for this SARS-Cov-2 in less than 6 months. . In April, the CDC stopped counting the number of fully vaccinated persons across the U.S. who were tested positive for Covid when they got to 10,262… While the CDC stopped tracking these cases, many states have not. Bloomberg gathered data from 35 states and identified 111,748 cases through the end of July… more than ten times the CDC's end of April tally. This proves the CDC is trying to hide that fact that the untested "vaccines" are dangerous. The PCR test will no longer be allowed after Dec 2021 in the USA.

So after billions of FAKE PCR tests, creating FAKE hysteria and FAKE paranoia and FAKE fear; the CDC is finally pulling the FAKE test that produces false positives for engine oil, orange juice and Coca Cola; WITHOUT ADMITTING THAT ONE YEAR OF FAKE TESTS CREATED A FAKE PANDEMIC AND THAT THEY ARE RESPONSIBLE FOR IT.

If everything from the fake pandemic to the fake tests to the fake Covid 19 cases to the fake vaccines is a scam; then why take the vaccine?

Fauci is making billions in vaccines. Rothschild is making a killing selling the tests. The drug companies are making trillions in profits. Large corporations have TRIPLED their profits due to restrictive measures imposed on small businesses. American hospitals get 53 K for every Covid case with ventilators, Pediatricians are getting 400$ bonuses from Blue Cross and Blue Shield for every child that they vaccinate. In the UK: local hospitals are receiving 15K US dollars per C19 death… US: Hospitals get paid $13K to List Patients as COVID-19 and $39K to put them on a Ventilator: THAT'S WHY. American hospitals are offering 500$ to their staff to take the experimental vaccines or else

be terminated. As a result hospitals are now overloaded not due to Covid but to 20-50% of their staff being fired for refusing to take the poison jab. Political leaders have become virtual dictators in democratic nations using fear mongering and this hoax as an excuse: Now they have come up with another scam: The CDC is listing Covid 19 vaccinated deaths as unvaccinated deaths if they die within 14 days of taking the vaccine; THUS DECEIVING THE MASSES THAT IT IS THE UNVACCINATED, NOT THE VACCINATED, WHO ARE DYING.

So you think all the vaccinated are going to die? Think again… most of the jabs are placebos. https://www.bitchute.com/video/zFhkB0PCOyNi/ They are killing people randomly, a bit at a time and blaming the deaths on new "variants". The J&J jab fell from 88% effective to 3% in August 2021.

LATEST U.S. VAERS REPORTS COVID VACCINES ARE KILLING 70 PEOPLE A DAY. Within 28 days of vaccination: 6,586 Welfare recipients in New York died. Since the administering of Covid vaccines to teenagers in England and Wales there has been a 63% rise in deaths among teenage boys. THIS IS DELIBERATE MASS MURDER; only they're doing it randomly so you won't notice. Unless we (meaning YOU) organize and fight this global propaganda by copying this post and spreading the truth; we will all be forced to take the jab and live in a locked down world of police states with no rights and no freedoms and no jobs and no small businesses. They already HAVE used it to destroy millions of lives, jobs, businesses, rights, and freedoms.

Oct 15th 2021 VAERS reports: 881,971 adverse reactions; 18,399 deaths. Merck is selling a federally financed Covid pill back to the US govt for 48 times what it costs to make by signing a 1.2 billion dollar deal with the govt for experimental treatment. In B.C. if someone dies suddenly; the coroner will NOT do an autopsy if the corpse tests positive for Covid because they have to keep padding the Covid numbers and they can't afford to expose the fact that the deaths are due to the vaccines, not the virus. The Total number of American Citizens that died within 14 days of receiving the COVID-19 vaccine is 48,465 according to hard data revealed in the Medicare Tracking System.

Out of 7,960 beneficiaries prescribed Remdesivir for Covid-19; 2,058 died. That is 25.9%. The Remdesivir Treatment was established in U.S. Hospitals at the direction of Dr. Anthony Fauci. Attorney Thomas Renz said "The nurses revealed to me that patients that are vaccinated are getting Ivermectin, which is proven to heal people. But if you are unvaccinated, they put you on Remdesivir in the hopes that you will die". As of Oct 22 2020 in America; Remdesivir has killed 350,000 people in US hospitals… Then they started shipping it to other countries! The Center for Medicare and Medicaid services in the US is offering a 20% payout to all hospitals if they pick Remdesivir over Ivermectin for all Medicare and Medicaid patients. Medicare currently pays out 2,400 dollars for every 5-day treatment of Remdesivir in 65 year or older patients. In Texas 84.8% of hospitalized people on ventilators are dying… Estimates are over 800,000 hospital murders were committed in 2021 in the USA. These deaths will be used to further terrorize the masses by blaming it on a virus and selling them more poison jabs.

Latest twist: UK official warns if you don't get another shot in 6 months you'll be considered unvaccinated: The Italian Higher Institute of Health: has Corrected Covid Deaths from 132,161 to 3,783. It turns out the vast majority of those who died with Covid had 1 to 5 other underlying conditions. 10 times more dead babies since vaccinations started and 20 times increase in breast cancer since depopulation

inoculations began in the UK. 32,000 Kaiser Permanente nurses are going on strike on Nov 15th 2021 in protest against the mandated vax, Miriam Webster changed the definition of "vaccine" early this year because MRNA products did not meet the definition of 'vaccine' that had been in place for 15 years. The CDC has redefined their definition of "vaccination" to suit political and pharmaceutical interests. By law every drug sold in the US must have a package insert listing all the ingredients. Covid inoculations instead have 4 empty pages titled "Intentionally Blank" on the 1st page. The BMJ (British medical Journal) has come out and said anybody dying of flu is automatically labelled as dying from Covid. There are 36 different strains of corona virus, 4 of them have been known to cause infection. There are 100 respiratory illnesses that have the same symptoms as Covid and there is no single test that can tell the difference between them.
70% of the people who died in Sept 2021 in the UK and Israel were fully vaccinated. 108 FIFA soccer players and coaches are now dead since vaccine roll out. Deaths of professional football/soccer players due to cardiovascular issues are doubling every three months. Investigation finds 278% increase in Worldwide Heart Attack Deaths among Soccer Players in 2021. Twice as many cardiac arrests in athletes vs. history of all cardiac arrests in athletes. As of Dec 28 2021; 339 athlete cardiac arrests, 193 dead, after Covid shot. Jan 4th 2022: Athletes collapsing and dying (400 in last 6 months)

In Dec 2021, 100% of all patients in intensive care in Belgium hospitals were fully vaccinated. U.S VAERS reports 2,620 fetal deaths after Covid shots injected into pregnant women; more than in all past 30 years put together. Recently a whistleblower in the US has revealed that the VAERS numbers have been falsified; Conservative estimates are that at least 500,000 deaths occurred from Dec 2020 to July 2021 due to the untested inoculations. Australia has recorded 11 times more deaths in 8 months following covid-19 vaccination than it has deaths following every other vaccine combined in over 50 years. Since July 2021 there have been almost 10,000 excess non-Covid deaths in the U.K. VAERS deaths in March of people who were vaxxed in March are only now showing up in Dec. They are manipulating the stats to hide the spikes in death due to the vaccine rollouts. CDC scrubbed the death of a 2-yr old, and is throttling new updates of deaths. In 2015: Moderna signed an agreement with the U.S. govt to co-own its Corona virus vaccine patents; thus the US govt is sharing in the profits, as the Canadian govt is doing with kickbacks from Pfizer and Moderna…

Deaths from heart attacks in Brazil as of the end of 2021 are now up by 80,000 in the year 2021 compared to 2020. Deaths of male children in UK are up 54% since they were offered the covid-19 vaccine. Latest UK Government Data: 70% Of Covid deaths Are DOUBLE-VACCINATED. U.S VAERS reports 2,620 fetal deaths after Covid shots injected into pregnant women; more than in all past 30 years put together. FDA Records subpoenaed by attorney shows over 158,000 Adverse "Events" in First 2.5 Months of COVID Shot Trials: FOAIA requests reveal Pfizer knew of the 158,000 adverse reactions and didn't tell anyone. Steve Kirsch has offered 1 million dollars for anyone from any major academic medical center or any govt agency to have a fair discussion on vaccine safety and efficacy for Covid; Even if they can't make the case that they are safe, they still get the money. *Nobody has taken him up on his offer.* In Canada, Pfizer had to release an analysis of adverse events to Health Canada on the first 3 months of their injections between Dec 2020 and Feb 2021: 70.6% of children who had the injection had serious side effects. 13% of breast fed babies of vaxxed mothers developed serious transmissible side effects. Research has shown that adverse effects of these shots are not random but are the product of dosage testing from different batches… Batch numbers have code numbers that indicate what level of toxicity each batch has… some batches are placebos; but it is impossible to determine what is in each batch, since big pharma keeps the contents of each batch a deep dark secret… For all we know, all of the batches or lots could be saline solution except for the ones causing adverse reactions. Which brings up another point… How much more profits are big pharma reaping by manufacturing vials of salt water THAT COST NOTHING TO

MAKE? Billions? But wait, there's another question that comes up… what if all the leaders encouraging everyone to get the poison jabs are actually getting placebo's instead? Eh?
https://www.bitchute.com/video/zFhkB0PCOyNi/
What if Trudeau was given a fake jab, EH? https://www.bitchute.com/video/JCyyWq9Yorw3/
Breaking News: Johnson & Johnson and Moderna have the same batch coding systems even though they're supposed to be completely different formulations and different companies.
VAERS has been found back dating deaths; that means it is reporting deaths that they received months ago now: in order to lessen the number of initial reports after vaccination. VAERS is also deleting people from their data base every week. People are literally disappearing from the system… Now VAERS does not report people who die after 4-6 weeks of being jabbed. Before it was after 2 weeks. VAERS does not update its records. It does not do follow-ups; it only records the first initial report. THAT MEANS NOBODY KNOWS HOW MANY OF THOSE ALIVE IN THE INITIAL REPORTS HAVE SINCE DIED… THEY ARE DELIBERATELY MAKING IT IMPOSSIBLE TO FIND OUT HOW MANY DEATHS ARE CAUSED BY THEIR INJECTIONS. When a death is reported, the VAERS protocol is to call back and if nobody picks up the phone or calls back, they mark down: "Department unaware of patients cause of death." So if a single person dies, they are unaware of it.

Prescription drugs are the third leading cause of death in the U.S. and Europe, after heart disease and cancer. Before this fake plandemic 440,000 patients died every year from medical errors in the U.S.… 1/3rd of all deaths in the U.S. were due to medical malpractice. Now they are killing people in hospitals deliberately for money in various ways. By targeting the old and the unvaxxed and administering Remdesivir & Midazolam.
By not allowing families to see their loved ones: thus keeping everything they do to them secret. By not treating other illnesses, using this hoax as an excuse. In the years following the plandemic: 2021 and 2022, the death statistics will explode, and will be used to further terrorize and brainwash the masses into taking more and more boosters, until people can't live without their next death shot and their updated vaccine pass/slave card.

Latest News: The CDC has been caught deflating Covid deaths by 1,600%; violating Federal Law. Heart attacks and myocarditis have gone up 1,600 % since the poison jabs started to be distributed. Australia Has Recorded 12 Times More Deaths in 10 Months Due to the Covid-19 Vaccines Than Deaths Due to All Other Vaccines Combined in 51 Years. Latest CDC data reports almost 35,000 Covid vaccine injuries among 5-17 yr-olds. For most of last year, many health professionals have asked the CDC to release its data on reinfection rates, but the agency refused, finally they released data from California and New York which demonstrated natural immunity was 2.8 times as effective in preventing hospitalization and 3.3 to 4.7 times as effective in preventing Covid infection compared with vaccination. A research study that was done in Singapore last year found that natural immunity against any SARS virus lasts at least 18 years…

Pfizer received more than 150,000 serious adverse event reports within the first three months of rolling out its experimental Covid shot. Of 32 pregnancies with known outcomes, 28 resulted in fetal death, two spontaneous abortions with intrauterine death, and one spontaneous abortion with neonatal death. There were 3,604 reports of spontaneous abortions, miscarriages, stillbirths, and neonate deaths on the U.S. Vaccine Adverse Event Reporting System through December 10, 2021

The UK Medicine Regulator has confirmed that over a period of twelve months the Covid-19 Vaccines have caused five times more deaths than the total number of deaths due to all other available vaccines combined in the past 21 years.

In Australia the rate of miscarriages in vaccinated mothers has risen to 74%... normally its between 5-14%. In the UK, hospitals are now dealing directly with crematoriums in order to hide the huge increase of babies dying.

LATEST NEWS: VAERS is hiding toxic batches of Covid inoculations by listing deaths on VAERS as "unknown manufacturer" so they cannot be traced to a certain toxic batch number.

A study of 145 of the most COVID-19 vaccinated countries in the world has found that there was a major increase of transmission and death after the jabs were introduced. In the United States alone, the corona virus jab has caused a staggering 38% more Covid cases per million. On top of that, the COVID-19 shot has caused a 31% increase in deaths per million. The study's findings are that the countries that recorded the fewest COVID-19 deaths in 2020 also had the largest increases in cases and deaths once the COVID-19 jabs were introduced. The causal impact results from vaccine administration seen in these countries is hundreds or thousands of percentage increases in total deaths and cases per million. In other words, big pharma and genocide Gates are mass murdering hundreds of thousands of people and getting trillions of dollars richer doing it *and they are not stopping.*

The latest data published by the UK Health Security Agency (UKHSA) confirms fully vaccinated children are over 3 times more likely to die of Covid-19 than unvaccinated children, suggesting the Covid-19 injections are causing some form of Vaccine-Associated Enhanced Disease such as Antibody-Dependent Enhancement, and the UKHSA are trying to hide it.

"Stevan Looney, who is a litigator, an attorney in New Mexico, who previously confirmed fraud by Pfizer, has done a review of the April tranche – the new tranche – and he found it shocking that 2,400 full-time employees were hired by Pfizer in February of 2021. "Because just in the three months previously, since the vaccines were rolled out December 1st, 2020, three months later, February 28th, 2021, they found… Pfizer's words to the FDA, 'A large number of adverse events,' so large, that they had to hire 2,400 new full-time employees to process the adverse events that they anticipated they'd receive in March, April, May, and June in the four months of 2021 to follow."
Dr. Wolf remarked on how it was "stunning" that the casualty toll from these COVID shots was so high during the era of "get vaccinated" and "get boosted" and yet, "You did not hear that there were so many adverse events in Pfizer's internal reviews that they had to hire 2,400 new full-time employees to deal with the paperwork and the data processing they expected due to the anticipated volume of adverse events."

JD Rucker: Plandemic Bombshell: China Started Stockpiling PPE Months BEFORE Covid Bioweapon Release

Over the last two years, China has been accused of hoarding various items conspicuously ahead of shortages. For example, they started hoarding over half of the world's supply of grains two years before the current food crisis that's spreading across the globe. But arguably, the most damning evidence that they at least know about and may be directly involved with the various crises the world faces is their stockpiling of personal protective equipment (PPE) several months BEFORE the first indication that Covid-19 was in the wild.

Within Mere Months, Moderna's Covid "Vaccine" Efficacy Turns Into AUTOIMMUNE DISEASE

New research conducted by Moderna in partnership with the Kaiser Permanente health care group reveals that the company's messenger RNA-based (mRNA) Wuhan coronavirus (Covid-19) "vaccines" cause the immune system to turn against itself in just a few months.
Also known as negative efficacy, the phenomenon involves progressive immune degradation in a manner similar to AIDS and other autoimmune diseases. In essence, the "fully vaccinated" become walking immune time bombs that Moderna claims require additional injection intervention.
It appears that the only reason Moderna even piloted this new damning study is to market new and additional shots to "fix" the problem created by the first round of shots

INVESTIGATION: Negligence, Fraud & Bribery; A day in the life of Pfizer

February 22, 2022 renegade 2 Comments

By Patricia Harrity

Many governments are offering pharma companies exemption from legal liability, but Pfizer has made indemnity demands that have gone way beyond that of other manufacturers. Pfizer has included additional indemnity from civil cases meaning that it would not be held liable for rare adverse effects, but also astonishingly, for its own acts of negligence, fraud, or malice including manufacturing errors. Acts that we show in this article, are not out of the ordinary for Pfizer.

Why though has the government failed to let the public know this? Pfizer has a long history of committing acts that would question their drug safety, and the drug pushing company's, honesty, and integrity, why has the public not been made aware of this fact?

We Rely on Testimonials

Scanning reviews and testimonials have become increasingly common practice for our nation of consumers, and there are even websites created specifically for the purpose of

enabling us to read the experiences of others before purchasing anything and everything from a tin opener to a car.

This enables us to have an informed choice as a consumer knowing whether a particular company or product is of quality, good value trustworthy, and importantly, is it safe. It seems ridiculous to say, but if there were over 1000 reported deaths attributed to a new product, in the first two months of sales, chances are everyone would know about it and it would be very unlikely that the product would still be available.

Exempt From Public Review?

That is, unless it is a big pharma company, such as Pfizer, as we know that this has happened with the Pfizer COVID product, yet it is still available, despite there being evidence that it is ineffective and potentially deadly.

When it comes to deciding to have a pharma product injected into our bodies where a potential side effect is death, "testimonials" or reports of adverse events are either met with cries of "fake news" or just censored altogether.

This should ring the alarm bells, yet many people have trust in a company that certainly would not do well on a public review website, but individuals choose to ignore the shocking Pfizer track record and trust them with their rushed through experimental product.

Here are some of the Pfizer business which we shall call the **Pfizer "Testimonials**

Those Who Seek to Earn A Profit Through Fraud

We can start In 2009 when Pfizer paid "$2.3 billion in the largest health care fraud settlement in the history of the Department of Justice. for "mis-promoting" medicine Neurontin for uses not approved by medical regulators, and paying "kickbacks" to compliant doctors, the Guardian newspaper reported.

The investigation was sparked by Pfizer whistleblower John Kopchinski, who exposed Pfizer for mis-promoting their drugs, thus, putting patients at risk of heart attacks, strokes, and blood clots. Kopchinski reportedly said that at Pfizer, he was expected to

increase profits at all costs, even when sales meant endangering lives. “I couldn’t do that.’” he said/

Pfizer pleaded guilty and also settled civil allegations concerning improper payments to doctors who prescribed nine other pharmaceutical products, although it continues to deny these charges but was to pay record sums in an out-of-court deal with the US department of justice.

Prosecutors said Pfizer’s crimes had been carried out over an extensive period of time a government attorney added “such blatant and continued disregard of the law will not be tolerated […] “it was a victory for the public over **those who seek to earn a profit through fraud”.**

Unfortunately, the $2.3 billion fine against Pfizer according to the *New York Times* amounted “to less than three weeks of Pfizer’s sales.”

Illegally Promoting Drugs & Putting Lives at Risk

This was just pocket change to Pfizer who clearly undeterred by the huge fine, was sued again in 2009. for illegally promoting their drugs, this time regarding Neurontin which was being promoted as an epilepsy treatment.

The New York Times had published extensive evidence that Pfizer “**manipulated the publication of scientific studies to bolster the use** of its epilepsy drug Neurontin for other disorders while suppressing research that did not support those uses.

Pfizer had delayed the publication of studies that had found no evidence the drug worked, ‘spinning’ negative data to place it in a more positive light, and bundling negative findings with positive studies to neutralize the results.”

Also, one of Pfizer's own studies showed a placebo was more effective than Neurontin on neuropathic pain, the study was suppressed and Neurotonin was still illegally promoted.

The case was instigated by whistle-blower Dr, Franklin who had previously testified in another Neurontin case in 2004 which resulted in Pfizer pleading guilty and paying a $430 million settlement. the 2004 case did not cover everything and new unsealed court documents were produced evidence that not only did the company, and its subsidiaries push Neurontin for unapproved uses, they did so – "**knowing that the drug was ineffective**".

Outright Deception and Suppression of Scientific Truth

According to the documents, Pfizer engaged in "outright deception of the biomedical community, and suppression of scientific truth" and more, Pfizer were said to be guilty of "**stalling or stopping the publication of negative study results; manipulating both trial designs and data to make the drug look more effective than it was, and using questionable tactics to enhance the drug's image and increase its sales**.

The author of the documents was also the director of the Center for Clinical Trials at John Hopkins University, Kay Dickersin who wrote that the Pfizer practices were **"highly unethical, harmful to science, wasteful of public resources, and potentially dangerous to the public's health."**

The Pfizer Ex-CIA Agent

As a result of the case Pfizer showed their true colours, mafioso style, as the night before the case Pfizer stalked whistleblower Dr Franklin and sent an ex-CIA agent to his home, where the Pfizer investigator called Franklin's wife repeatedly, blocked the driveway, looked through the windows shouting at his wife, and would not leave until his wife called the police," This was terrifying for the family including an eight-year-old child., they would not leave until his wife called the police.

Dr. Franklin told the judge that Pfizer's investigator told the family on the phone, "'We know all there is to know about you,' and then cited the location of my daughter 200 miles away at college. "How the hell am I supposed to remain unbiased when you do that? It feels like a threat." The judge placed a restraining order on Pfizer for "any private eye with respect to Dr. Franklin or his family."

Trovan Children & Blackmail.

Pfizer has shown their disregard for children previously when they administered an experimental drug Trovan on 200 children after a deadly outbreak of meningitis in Nigeria in 1996. The drug pushers never told the parents that their children were the subjects of an experiment.

11 of the children died & many suffered side effects such as brain damage and organ failure.

Pfizer was sued by the Nigerian state and federal authorities, but did not want to pay out to settle the two cases, one civil and one criminal, but came to a tentative settlement with the Kano state government costing them $75m (source).

> Pay close attention, parents. A Washington Post investigation reported that one **10-year-old girl** suffering from meningitis was not taken off experimental Trovan and given standard, proven treatments by Pfizer's clinical trial operators–when it was clear that her condition was deteriorating. One of her eyes froze. She lost strength, then died. A Nigerian doctor who supervised the studies for Pfizer admitted that his office had "backdated an approval letter" for the human trials, which "may have been written a year after the study had taken place." Informed consent was undermined by language and education barriers.
>
> One outraged African newspaper demanded that the government "tell us whether **our children were used as guinea pigs** and, if so, who committed such criminality and who is liable." After years of protracted litigation with the pharmaceutical behemoth, Nigerian families reached **a $75 million out-of-court settlement sealed with a confidentiality clause.**

Washington Post – Article

Although it was leaked that Pfizer again hired investigators in an attempt to "unearth evidence "of corruption against the Nigerian attorney general in order to blackmail/persuade him to drop legal action according to a leaked US embassy cable. Also, eligibility was dependent on DNA tests carried out on the children. to prove that they are victims, which was felt was to deny the victims of the money.

Rezulin -FDA Fast Track Approval

The FDA had approved a drug Rezulin, for the treatment of diabetes in January 1997, on the basis of a "fast-track" review of six months. **It marked the agency's most rapid approva**l to that date of a diabetes pill.

Years later the effects of that "approval" were seen in court claims, as in 2009, Pfizer paid $750 million to settle 35,000 claims that Rezulin, was responsible for 63

deaths and dozens of liver failures. Pfizer had 105 class-action suits in state and federal courts seeking either medical monitoring of people who had taken Rezulin or damages or restitution for those patients.

They also said it faced individual lawsuits on behalf of 4,500 Rezulin patients and about 8,400 claims for compensation, but a Pfizer spokesman at the time Bob Fauteux said Pfizer is "confident about the future course of litigation because FDA figures show that, of an estimated 1.9 million diabetes patients who were prescribed Rezulin", there have been fewer than 100 reports of liver failure leading to death or transplant at the time the drug was withdrawn.

> Pfizer Inc. agreed Friday to settle a lawsuit over the diabetes drug Rezulin after a jury earlier in the day awarded $43 million to a Texas woman who said it destroyed her liver. The settlement was the first of what could become a series of payouts involving the drug that has been blamed for 63 deaths and dozens of other serious liver failures worldwide.
>
> People familiar with the settlement said the company would pay more than $30 million to Margarita Sanchez, 63, who has been on a transplant waiting list since her liver failed after she took Rezulin for two months in 1999. The payment is expected to influence the course of thousands of other lawsuits over the drug, which was pulled from the market in March 2000.

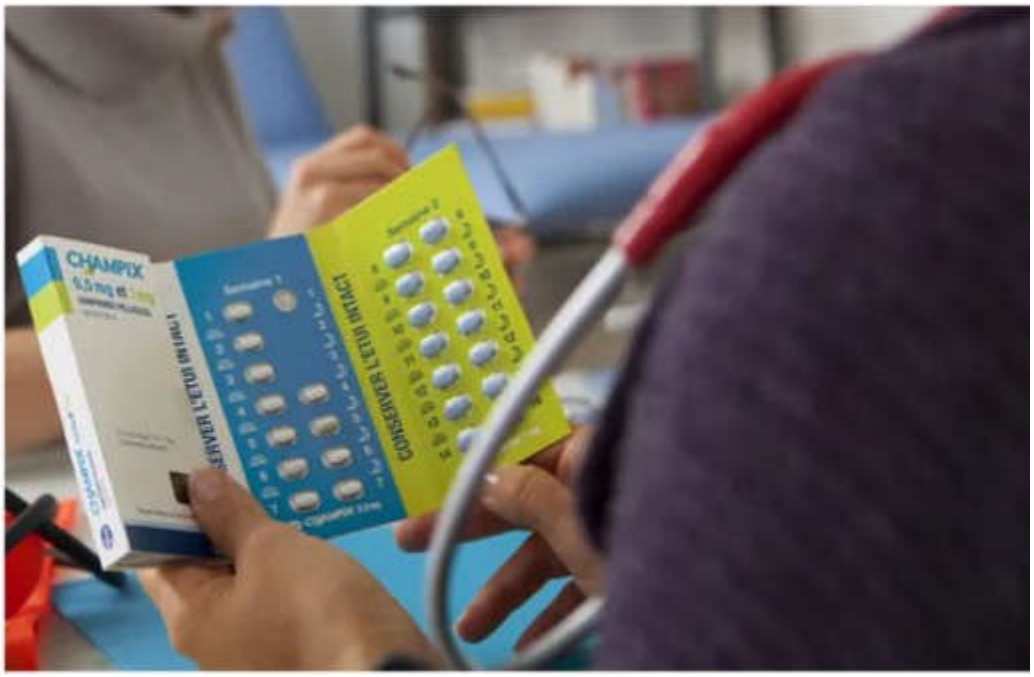
Unbelievably, or not so much these days, the FDA stood behind the drug despite a mounting death toll and absence of life-saving benefits and it is interesting to note with this case that the Rezulin controversy was reported to have also "cast a shadow" on the Food and Drug Administration, (FDA) which gave the drug fast-track approval despite concerns within the agency over its safety.

Chantix – Incomplete Trials & Psychological Disorders

The FDA was, however, a little stricter with a Pfizer product in 2013 after their smoking cessation drug was reported to have caused suicide, suicide attempts, and severe psychological disorders, and according to The Guardian, one man had committed suicide in April 2013 only 8 days after taking the medication, adding to the 24 more people who had committed suicide since its launch in 2006.

'His death still hurts': the Pfizer anti-smoking drug ruled to have contributed to suicide

An Australian coroner says Champix had a role in Timothy John's death, which occurred after only eight days on the drug



Pfizer's Chantix trials had improperly excluded patients with a history of depression or other mental disturbances resulting in around 2,700 lawsuits being filed against Pfizer March 2013, Pfizer agreed to settle the state and federal lawsuits against Chantix, costing Pfizer almost $300 million.

This led to the FDA requirement of a "black box" warning on the drug, Chantix, alerting patients and doctors to the risk of psychiatric side effects. (yes it was still available after) . It was also determined by the FDA that Chantix is probably associated with a higher heart attack risk.

Pfizer disputed the research behind the FDA's opinion and continued to stand by the drug's risk-benefit balance, but in July 2021, Pfizer announced that it was recalling two lots of the smoking cessation treatment after discovering the presence of N-nitroso-varenicline that can potentially increase the risk of cancer in humans.

Only 15 years after its launch? (source).

I think we all can see just from a handful of "testimonials" that Pfizer is not a company with integrity and shows that for Pfizer, wealth is far more important than health, as long as they can get away with it.

There are lots more of these types of cases a few are mentioned below.

Protonix – Lack of Warnings

Also in 2013, Pfizer agreed to pay $55 million to settle criminal charges of failing to warn patients and doctors about the risks of kidney disease, kidney injury, kidney failure, & acute interstitial nephritis caused by its proton pump inhibitor, Protonix. It was argued that Pfizer had not done enough to warn patients and medical professionals about the possible risks as the companies became aware of them (source).

Pfizer & Bribery

In 2012, Pfizer was charged with violating the Foreign Corrupt Practices Act when its subsidiaries bribed foreign government doctors in Bulgaria, China, Croatia, Czech Republic, Italy, Kazakhstan, Russia, and Serbia in order to win business.

"Pfizer subsidiaries in several countries had bribery so entwined in their sales culture that they offered points and bonus programs to improperly reward foreign officials who proved to be their best customers," said Kara Brockmeyer, Chief of the SEC Enforcement Division's Foreign Corrupt Practices Act Unit. Pfizer consented to the entry of a final judgment ordering it to pay disgorgement of $16,032,676 in net profits and prejudgment interest of $10,307,268 for a total of $26,339,944 .(source).

Prempo – Pfizer Withheld Information

In 2012, Pfizer had paid $1.2 billion to settle claims by nearly 10,000 women that its drug, Prempro, caused breast cancer. This included punitive damages for the drug maker's actions in withholding information about the risk of breast cancer (source).

Epi Pen Greed

Pfizer continues to be sued for fraud. In 2021, Pfizer agreed to pay $345 million "to resolve claims by consumers who say they overpaid for EpiPens due to anticompetitive practices by Pfizer and the company that markets the emergency allergy treatment, Mylan.More. The litigation followed a public outcry in 2016 after Mylan, which owns the rights to market and distribute the devices, raised the price of a pair of EpiPens to $600, from $100 in 2008, putting it in the centre of an ongoing U.S. debate over the high cost of medicines.

Largest Penalty for Dumping Pollutants

Pfizer held the record for paying the largest fine under the Clean Water Act when it paid $3.1 million in 1991 "for dumping pollutants into the Delaware River from 1981 to 1987. Federal officials said it was the largest penalty of its kind, but Pfizer disputed that it was the largest." "The EPA said pollutants were discharged at levels toxic to aquatic life that depleted the river's oxygen supply. But Pfizer said it was 'unaware of any evidence that Pfizer's discharges caused any environmental harm or damage to aquatic life in the Delaware.'"

Evil Profits

So right up to date, Pfizer have been shown to be continuing on with its disregard for human life in order to promote a cash cow..

This was seen in an undercover investigation by *Project Veritas* revealed Pfizer officials admitting that Pfizer's history of greed and deceiving the public continues with its COVID-19 vaccine.

Chris Croce, a senior Pfizer scientist stated, "I still feel like I work for an evil corporation because it comes down to profits in the end. …Basically, our corporation is run on COVID money now. It netted over $15 billion last year."

Other Pfizer scientists described that natural immunity is stronger and more robust than immunity gained through Pfizer's vaccine, but said they are trained by Pfizer that they "cannot talk about this." Croce described Pfizer's culture as one of paranoia, where scientists wonder "who's listening?" and stated, "You don't talk about anything that can possibly implicate you or Big Pharma."

With Pfizer being guilty of negligence, fraud, bribery and malice throughout the years, it should come as no surprise as to why Pfizer has demanded indemnity from civil cases resulting from its own acts of negligence, fraud, or malice including manufacturing errors.

But with this murky history, why is Pfizer now being trusted to jab the population with a rushed, experimental cocktail that is proven to be harmful and deadly, when Pfizer clearly cannot be trusted with our health?

Official U.K. Lab Report Confirms Covid-19 Vaccines Definitely Contain Graphene Oxide

February 14, 2022 renegade 4 Comments

By Patricia Harrity, The Expose

The Covid-19 vaccines have been forensically examined in the United Kingdom and a laboratory report confirms they contain graphene nanomaterials that can penetrate the body's natural barriers and damage the central nervous system, and Graphene Oxide which can damage internal organs, destroy blood health, trigger cancer, and cause changes in gene function among a host of other ill effects.

Following her own experience with patients who had suffered apparent vaccine injury and adverse reactions, a British Medical Practitioner came forward in December 2021 offering to assist in an investigation to ascertain whether the results discovered by Dr's Noack and Campra could be replicated in the UK and also to examine the COVID-19 injection vials for discovery of toxins or unexpected contents.

The medical practitioner seized an injection vial from the fridge housed in the surgery in which she works and handed it to an independent investigator assisting in investigating cases relating to injury sustained as a result of injections given as part of the roll out.

Further vials have since been obtained which cover the three main manufacturers in the UK: Pfizer, Moderna and AstraZeneca.

The contents of the injection vials have been forensically examined and a laboratory report has now been officially published.

The report titled "Qualitative Evaluation of Inclusions In Moderna, AstraZeneca and Pfizer Covid-19 vaccines" has been presented to the Police involved in the UK Criminal

Case, 6029679/21, which is said to provide them with more than enough reasonable suspicion that serious indictable offences have been committed regarding the administration of experimental treatments.

The report contains the toxicology reports of injection vials that have been forensically examined, with findings that provide "more than enough grounds" for the Police to apply for the Police and Criminal Evidence Act 1984 Warrant and seize injection vials for themselves.

The Police will then be able to submit them to a Home Office Laboratory with a view to replicate the findings and will enable them to possess their own hard evidence to support serious indictable offences.

Additionally, the police, in line with the duty of care to the public, have been asked to request the immediate cessation of the experimental treatment rollout.

Intelligence Defence & Security
UNIT

The inclusions that are not declared by the manufacturers were the focus for this particular analysis, primarily graphene and carbon-related nanostructures in form of carbon or graphene composites, graphene in association with polyethylene glycol, graphene oxide, iron oxide compounds, and calcite.

The Four Vials

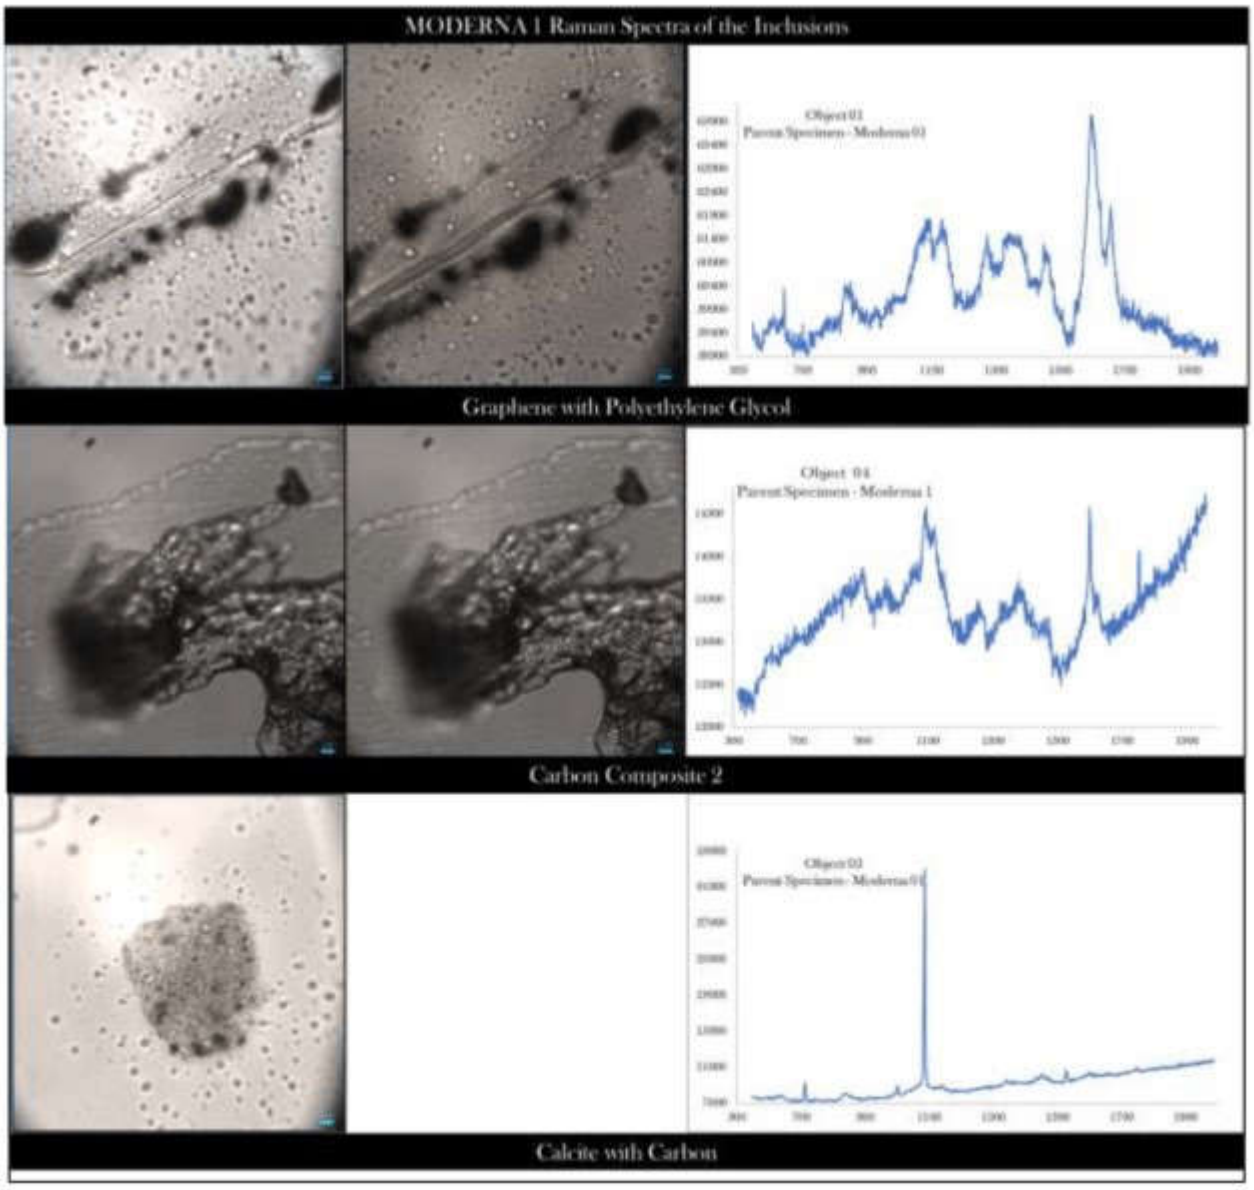
The analysis of all four vial contents identified objects that are similar and have been defined and illustrated within the report individually.

The Identified inclusions were:

1. Graphene nano ribbons coated with Polyethylene Glycol
2. Graphene Composite Form 1.
3. Graphene Composite Form 2.
4. Microcrystalline Calcite with Carbonaceous inclusions.
5. Graphene Nano Form with and without fluorescence
6. Graphene nano objects
7. Graphene nano scrolls

Moderna 01

The first sample that was evaluated was the Moderna 01 which was examined by Raman spectroscopy. The investigation clearly showed that all the inclusions within the vaccine have a strong carbon signal with confirmed graphene compositions of some representative forms.



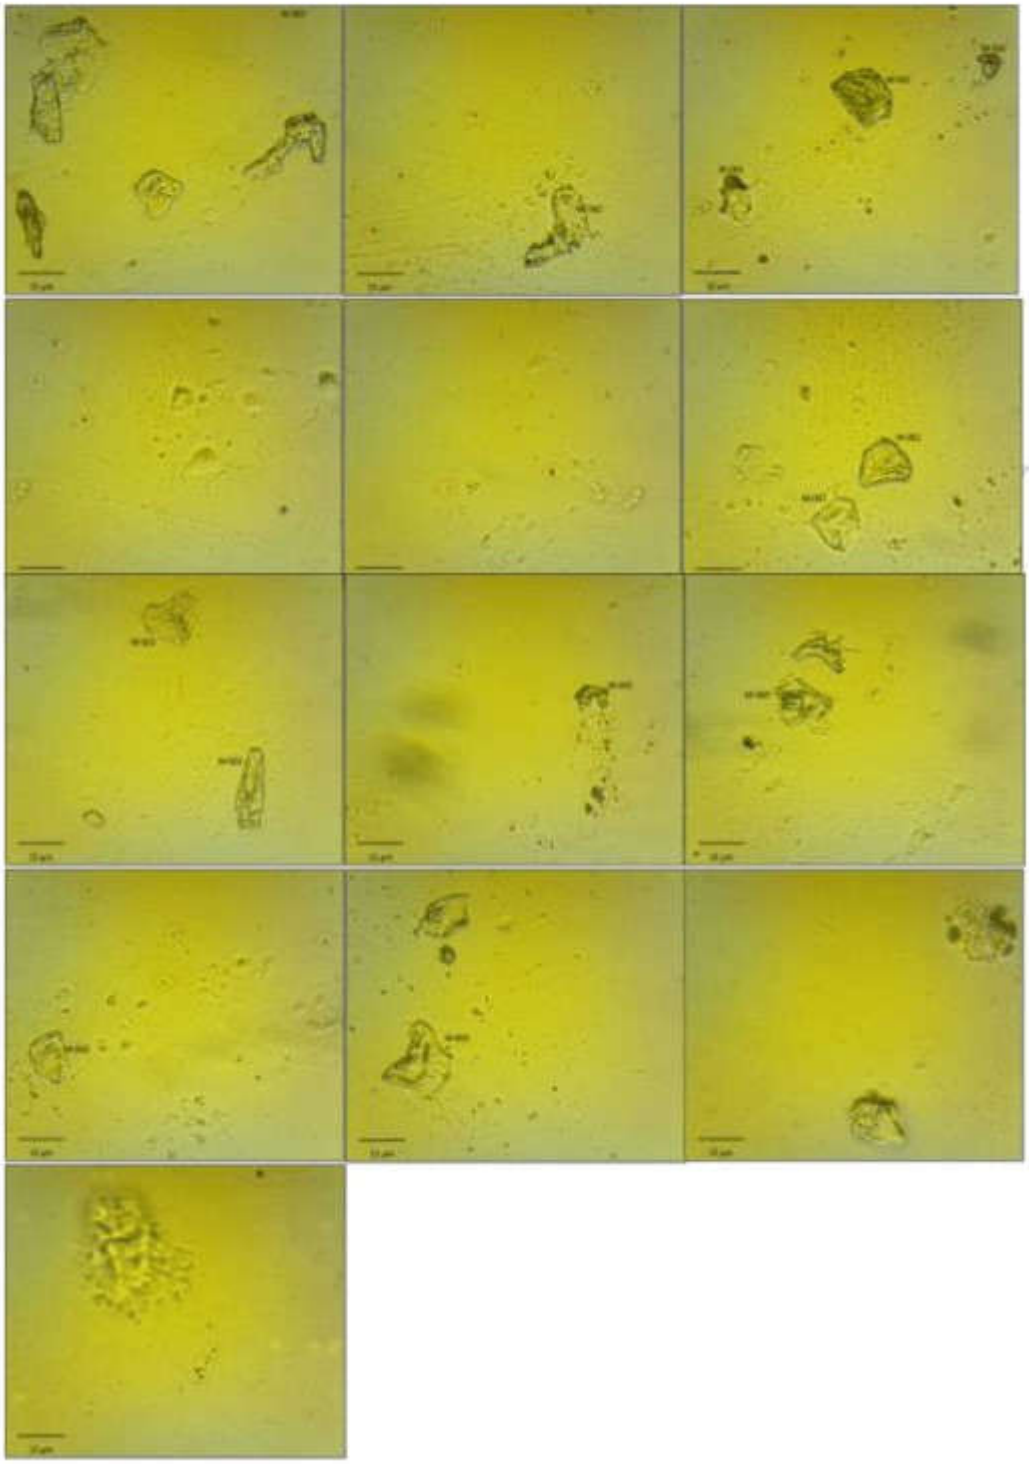
Two clear signals were obtained from two objects. The flat ribbon-like inclusions exhibited clear graphene spectra integrated with the spectrum of glycol and other minor compounds. The other clear signal was obtained from a calcite microcrystalline form and Carbon composite forms also had a clear graphene signal.

It is important to point out that some nano amorphous carbon forms showed a clear Graphene signal, however, these forms also exhibited fluorescence which masked the Graphene peak.

Moderna 02

Particles that carry the mRNA load were clearly seen and Graphene composite 01 was prominently present even at low resolution and Graphene Nano objects were present in “great abundance.” within the vial sample.

On higher magnification, the slide material seemed to abound in carbon-related forms. Figure 3.17 shows different shapes and forms that were noted along various transects across the slide. It is noteworthy, that the noted deposits are on three separate planes, with a significant difference in the depth of focus.



AstraZeneca

AstraZeneca was the third vaccine that was evaluated for its inclusion, and as it was almost transparent it made “spotting of inherent colours slightly easier”. Under wet microscopic observation, the solution exhibited instantaneous movement of nanoscopic particulate material which when observed closely seemed to be driven by convection current.

When dry, the particles exhibited traction movement. In figure, 3.21. the microscopic form is clearly visible as it is lying on top of the solid film while the nanoparticles are still in motion in the background as can be seen by the shifting position of the shadow. A clear output of this mechanism was that as the medium solidified, it became more difficult for the nanoparticles to navigate through the viscous material.

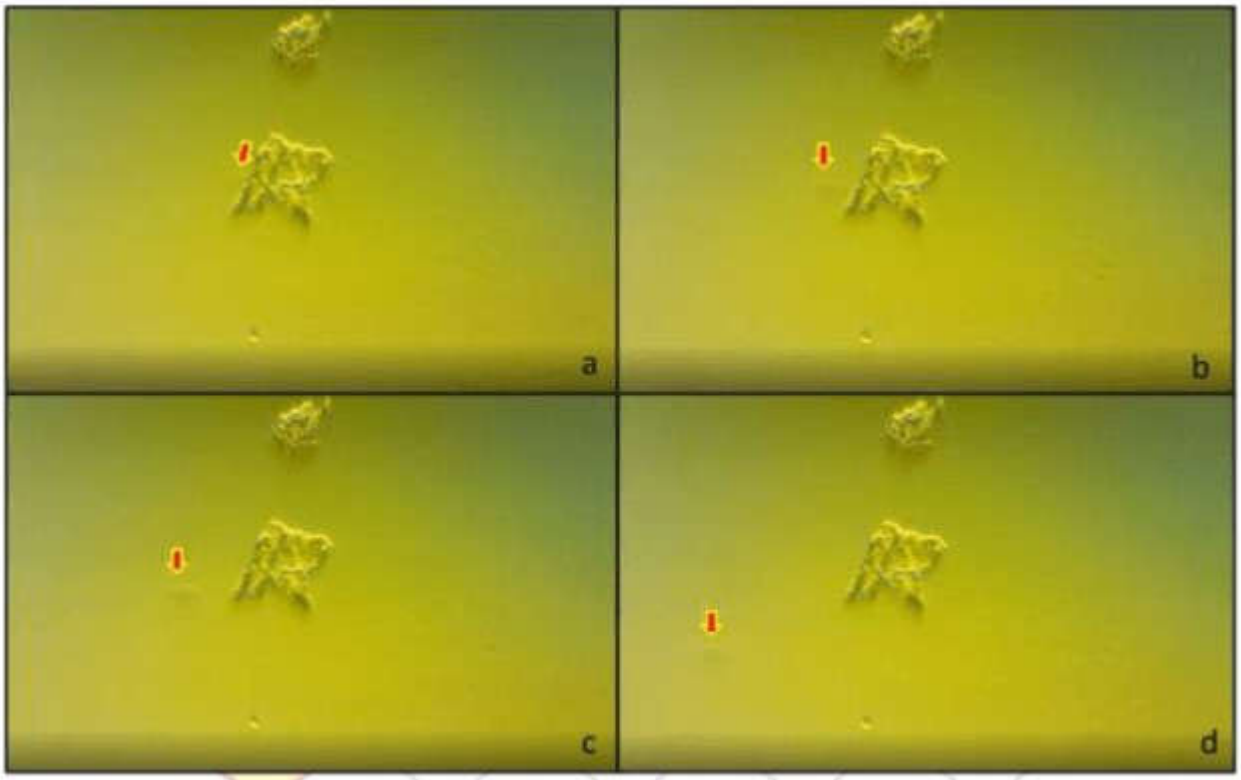


Figure 3.21. Lamellar convection columns with solidified top resulting in deposition of the flaky particle. The arrow points to the position of the nanoparticle in the deeper column of cooler material.

Confirmed inclusions within AstraZeneca were of the presence of Graphene in all the identified representative forms. The carbon composites are of two forms as they are in the Moderna vaccines. These two forms showed distinct graphene signatures. Also, besides Graphene the spectrum is dominated by iron oxide and other forms of carbon associations.

Pfizer

Pfizer was the fourth vaccine vial that was evaluated for its inclusions. The pipette specimen showed some extremely interesting inclusions. As the material was sucked into the pipette, distinct translucent to transparent sheets were seen floating about as seen in figure 3.28.

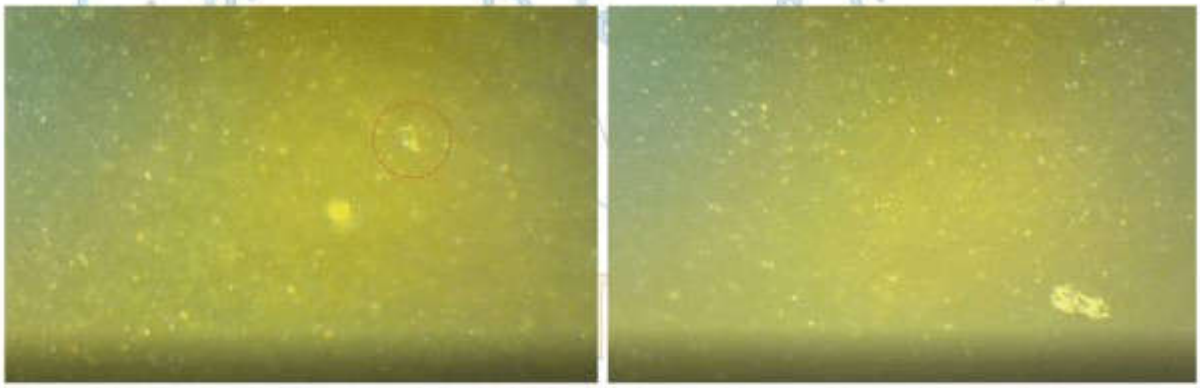

Figure 3.28. Floating lighter material. In the background, the golden sparkly particles are the future self-assembly nano particles that will encapsulate the mRNA.

The two objects of interest that were clearly noted to be floating about but could not be located once the slide had dried, were: (1) an extremely pointy transparent spicule like object (figure 3.30) and the other was a thin translucent perforated sheet (figure 3.31).

Where, both the objects are of interest to this study, the nature of the spicule remains vital for future work to identify.

As the solution was poured onto a slide for observation, the mixture exhibited the same nanoparticulate self assembly mechanism as was observed in both Moderna and AstraZeneca vaccines. As the material dried out, the inclusions settled at various depths depending upon their relative densities.

Figure 3.32 shows an assembly of various forms of inclusion that were identified within Pfizer. These fall in the same category as mentioned in section 3.1.

Three of these samples showed carbon composite signatures with possible graphene in. The signals of amorphous carbon-like materials were extremely complex with carbon along with iron oxide and several other compounds in them.

Ribbon forms of nearly transparent microforms are found in fair numbers in the slide. These are often half embedded in the solution with one end projecting outside the material. The carbon composites of both form 1 and 2 also are present in great numbers. Form 1 settles on top of the material while form 2 is found at mid-levels of the solidified medium. Graphene nanoforms are present in fair numbers within the slide material along with some scrolls. Figure 3.32. Representative inclusions found within Pfizer vaccine.

The signals of amorphous carbon-like materials were extremely complex with carbon along with iron oxide and several other compounds in them. The graphene complex 1 is graphene with polyethylene glycol signal forming the bulk of the spectrum. Though, for initial assessments, this study can confirm the presence of graphene in Pfizer.

Notably, one of the samples that was shot, displayed a fair influence of fluorescence.

To Conclude

All three vaccines commonly employ the self-assembling lipid nanoparticles as drug delivery mechanisms. Where the central find of this project has been the confirmation of the presence of graphene in all four samples, it is important to evaluate this find in the context of the subject itself.

It is also important to mention, that the source of fluorescence within the samples was unknown while the investigations were underway, and due to tight timescales were not able to be investigated at the time.

Abstract

Due to their unique physicochemical properties, graphene-family nanomaterials (GFNs) are widely used in many fields, especially in biomedical applications. Currently, many studies have investigated the biocompatibility and toxicity of GFNs in vivo and in intro. Generally, GFNs may exert different degrees of toxicity in animals or cell models by following with different administration routes and penetrating through physiological barriers, subsequently being distributed in tissues or located in cells, eventually being excreted out of the bodies. This review collects studies on the toxic effects of GFNs in several organs and cell models. We also point out that various factors determine the toxicity of GFNs including the lateral size, surface structure, functionalization, charge, impurities, aggregations, and corona effect ect. In addition, several typical mechanisms underlying GFN toxicity have been revealed, for instance, physical destruction, oxidative stress, DNA damage, inflammatory response, apoptosis, autophagy, and necrosis. In these mechanisms, (toll-like receptors-) TLR-, transforming growth factor β- (TGF-β-) and tumor necrosis factor-alpha (TNF-α) dependent pathways are involved in the signalling pathway network, and oxidative stress plays a crucial role in these pathways. In this review, we summarize the available information on regulating factors and the mechanisms of GFNs toxicity, and propose some challenges and suggestions for further investigations of GFNs, with the aim of completing the toxicology mechanisms, and providing suggestions to improve the biological safety of GFNs and facilitate their wide application.

In conclusion, it can be stated that the four samples of vaccines (Moderna 1, Modern 2, AstraZeneca, Pfizer) all contain significant amount of carbon composites, graphene compounds, and iron oxide.

These ingredients were undeclared by the manufacturers and are absent from the list of ingredients for the vaccines. However, studies show how dangerous the Graphene family is, yet individuals have not been made aware that they are being injected with the deadly substance.

FINALLY….

The Russian govt, due to the war in Ukraine, has discovered evidence in biolabs in Ukraine that connects the secret, hidden, global cabal for worldwide genocide of the entire planet… of which the Covid Plandemic is only a small part…

Hunter Biden's Investment Fund Connected to Financing of Pentagon-Funded Biolabs in Ukraine: MoD

In recent weeks, the Russian Defence Ministry has peeled back layers of information about 30+ Pentagon-funded biolabs feared to be engaged in dangerous and illegal research into deadly pathogens in Ukraine. US officials and media initially denied that the labs existed, but a senior Biden administration official later confirmed their presence.

An investment firm connected to US President Joe Biden's son Hunter Biden has been implicated in the financing of the Pentagon's military biological programme in Ukraine, the head of Russia's Radiation, Chemical and Biological Defence Troops has announced, citing fresh documents.

"Incoming materials have allowed us to trace the scheme of interaction between US government bodies and Ukraine's biolabs. The involvement in the financing of these activities by structures close to the current US leadership, in particular the Rosemont Seneca investment fund managed by Hunter Biden, draws attention to itself," RCBD Troops chief Igor Kirillov said in a briefing Thursday.

According to the MoD's information, the fund has at least $2.4 billion in investment capital. "At the same time, a close relationship has been established between the the fund and key contractors of the US military, including Metabiota, which alongside Black & Veatch is one of the main suppliers of equipment for Pentagon biolaboratories around the world," Kirillov added.

The Los Alamos National Laboratory - birthplace of the US atomic bomb, has served as one of the chief curators of the US military biological programmes in Ukraine, Kirillov said.

USAID, Soros Foundations, CDC Also Involved, MoD Says

"The scale of the programme is impressive. Along with the Pentagon, the US Agency for International Development (USAID), the Soros' Open Society Foundations, and the Centers for Disease Control and Prevention are directly involved in its implementation," the officer said. "Scientific supervision is carried out by leading research organizations, including the Los Alamos National Laboratory, which developed nuclear weapons for the Manhattan Project. All of this activity has been carried out under the direct control of the Pentagon."

Kirillov accompanied his presentation with new Ukrainian-language documents detailing the operations of laboratories suspected of involvement in US-funded military biological activities, including a detailed listing of 31 laboratories across 14 settlements.

"This document was signed by deputy state secretary of the cabinet of ministers of Ukraine Viktor Polishchuk. The legal basis for its signature was an agreement on cooperation to prevent the spread of technologies, pathogens and information which can be used to develop biological weapons. The registration card identifies the customer: the Defense Threat Reduction Agency, and also includes a list of bio facility sites," the officer said.

The MoD also released a document from the office of the secretary of defense approving Project Concept UP-2, described as a 'multi-pathogen mapping' project which "includes molecular fingerprinting of pathogens endemic to Ukraine and strain transfer."

The 2008 document was signed by Richard Douglas, who served as deputy assistant secretary of defense during the George W. Bush administration, and Arthur Hopkins, a deputy assistant to the Secretary of Defense for nuclear, chemical and biological defense programmes.

Ukrainian Troops Used as Guinea Pigs

Kirillov provided other new details on US military biological activities in Ukraine in his presentation, citing documents detailing the testing of unlicensed pharmaceutical products which did not pass licensing procedures in the US and Canada on Ukrainian military personnel under a programme known as 'Deep Drug'.

"Documents confirm an attempt to test previously untested drugs on Ukrainian military personnel [under the] Deep Drug screening system for pharmaceuticals which have not passed the licensing procedure in the United States and Canada. The special cynicism of the US sponsors of the programme lies in the fact that the developer -Skymount Medical Group, offered to purchase the system on a commercial basis, even though employees of the Ukrainian defence ministry were used as volunteers" for its testing, Kirillov said.

Kirillov also said that over 4,000 individuals were involved in research under the previously detailed Project UP-8, and that according to a Bulgarian media investigation, 20 Ukrainian servicemen died and 200 hospitalized during experiments in the Kharkov laboratory alone.

The officer suggested that such practices were nothing new, recalling that in 2010, authorities in Indonesia terminated biological research activity being conducted by the US Naval Medical Center in Jakarta over numerous violations and a refusal by US authorities to inform the Indonesian government about the results of their research.
Kirillov also revealed that Pentagon-affiliated pharmaceutical firm Gilead has been involved in the testing of its products in Ukraine and Georgia.

Industrial-Scale Export of Biosamples

Russia's Radiation, Chemical and Biological Defence Troops have established that the US and its allies have exported about 16,000 biosamples from Ukraine as part of their military biological activities in the country. "Such large-scale screening of the natural immunity of the population was likely carried out in order to select biological agents that are most dangerous for the population of a particular region," Kirillov said.
The officer pointed to the taking of blood samples from 4,000 servicemen in Lvov, Kharkov, Odessa and Kiev for antibodies to hantaviruses under Project UP-8, and an additional 400 samples probing for antibodies to the Crimean-Congo fever virus. He added that in addition to tissue and blood serum samples, dangerous pathogens and their carriers were exported abroad from Ukraine. Over 10,000 samples were sent to the Lugar Center in Georgia alone, according to Kirillov, with labs in the UK and the Leffler Institute in Germany also serving as recipients, subjecting not only Ukraine but the entire region to dangers.

New COVID

Kirillov warned that the spread of pathogenic biomaterials in Ukraine could lead to a new pandemic, saying that in the Russian military's view, "the current situation involving the spread of pathogenic biomaterials from Ukraine to European countries can cause death and create a hotbed of epidemiological instability the scale of which would be comparable to the COVID-19 pandemic."
The officer pointed to the Pentagon's record of causing health scares involving deadly pathogens, recalling that betwen 2005 and 2015, live anthrax spores were accidentally sent from the US Army Dugway Proving Ground to 194 addressees in ten different countries.

Anthrax Insects

Krillov also pointed to suspected US interest in the means of transmitting anthrax through insects. "The interest of US military biologists in the study of insect vectors in the locations of cattle burial grounds appears not have been accidental, with researchers analyzing the results of an outbreak of anthrax in Yamal in 2016, during which cases of transmission of the disease through flies and horseflies were recorded," he said.

International Investigation Needed

The officer echoed concerns voiced by China's foreign ministry earlier this month about the real purpose of the 336 labs scattered across 30 countries being operated with US funding and other forms of support, and suggested that in light

of the new information which has been disclosed, an international investigation is in order.

China Demands Answers From US Over Russian Revelations About Military Biolabs in Ukraine
8 March, 13:09 GMT

Thursday's revelations by the MoD follow a separate document dump last week containing frightening details on some of the research feared engaged in at US-funded laboratories scattered across Ukraine, such as work studying the transmission of diseases through bats, 'Project Flu-Fly-Way', studying how wild migratory birds might be used as vectors to transmit avian influenza, and others.
The Russian military started disclosing details on the scale and scope of the US-funded network of biolabs in Ukraine on 6 March, reporting, citing documents, that the Ukrainian health ministry had given the order to scrub incriminating evidence on research into deadly pathogens including anthrax, the plague, tularemia, cholera and other deadly diseases.
US officials and media dismissed the Russian allegations, releasing "fact check" pieces explaining that the "false claim of US biolabs in Ukraine [is] tied to [a] Russian disinformation campaign." These same officials and outlets were forced to change their tune after US undersecretary of state Victoria Nuland confirmed that the biolabs existed, and that the US was "quite concerned" that Russian troops might take control of the facilities.

The irony that China's involvement in creating the Covid virus in their own biolab, is now pointing the finger at the US military, which it has been colluding with for years under the aegis of Fauci's NIH bio-weapons funding and research programs, should not be lost… AND that the Russian version of the experimental MRNA which has killed unknown numbers of Russians in the last 2 years since Russia doesn't have any Adverse reporting system and neither does China; should not be lost either in the greater perspective of this evil global race for the self-extermination of the entire human species; be it by nuclear war or by bioweapons or by MRNA experimental death jabs; which leave those who are not killed by the jab permanently crippled, sterile or impotent. This means that there are huge areas of the world where the effects of these injections are unknown.
